

CUSTOM RANGE BONDED BLINDS

Beautifully crafted, subtly detailed

Covered in the fabric of your choice, Bonded Roller Blinds can add a touch of luxury to any space. Incredibly versatile, Bonded Roller Blinds are an ideal option for children or teenage rooms, kitchens, laundry windows, or family rooms requiring full light blackout. They can also be dressed for formal areas by adding tassels, padded or bonded pelmets or curtains. With so many options to choose from, you'll be spoilt for choice.

SUPERB QUALITY

Our exclusive state-of-the-art machinery and highly skilled crafts people create the most well-renowned Bonded blinds in Australia.

QUOTE ASSIST

We can assist you over the phone with quoting, calculating fabric requirements and ordering. Our highly trained Customer Service team have over 60 years of soft furnishing experience.

3. REDUCE SHRINKAGE

Fabrics for Bonded and Roman blinds, which are recognised to shrink, are processed through our specially designed fabric shrinking over to reduce movement after manufacturing and ensure your blinds retain their shape and quality for many years

Custom made Bonded Blind from BQ Design

COMPONENTRY

OUR STANDARD BLIND INCLUDES:

- Chain operation with white plastic bead chain. Other chain colours available on request: birch white or black plastic, nickel plated or stainless steel (rust resistant).
- Robust aluminium roller tube and brackets, chain drive and chain tensioner colour matched to chain.
- Booster spring included in larger blind sizes.
- Finished with a fabric lathe.

Also available on request:

- [Motorisation](#)
- Dual brackets: Allows both a blackout and light filtering blind to be installed on one window with blinds sitting one in front of the other.
- Easy link connector: Connects multiple blinds together on adjoining windows, with minimal gap between each blind and one chain operating all blinds or blinds can operate independently.

FABRIC

Bonded Roller Blinds provide you with an opportunity to include a plain or statement print fabric in your room. Your fabric is carefully bonded to a blackout ivory (BQ standard) or white coloured polyester then applied to the roller blind componentry. We can join and perfectly pattern match fabrics for wide width blinds. For the best results select a non sheer fabric with at least 40% cotton content and no heavy embroidery. The following fabric are not suitable for bonding: 100% polyester, linens, some silks, chintz, backcoated fabrics and fabrics with high viscose content. BQ can test fabrics for suitability.
