THE RIGHT PRICE

BQ's Home Range products are an economical way of getting a high quality product at a very affordable price.

FAST AND EASY

Quick and efficient turn around time – 8 working day turnaround.

JOB TRACKING

Receive your job on time every time with our innovative Job Track system.

BQ Design Home Range Roller Blinds

CUSTOMISING YOUR BLIND IS AS EASY AS 1 2 3

- 1 SELECT YOUR FABRIC
- 2 ADD ANY OPTIONAL FEATURES TO OUR STANDARD BLIND
- 3 MEASURE AND ORDER

BQ Design provide manufacturing services to soft furnishing retail traders.

1. FABRICS

There are over 50 fabrics to choose from, including: blockouts, translucents, screens and sheers. Select a colour and style that compliments your room. The fabric is included in the cost of the blind.

View our [Home Range fabric collection](#).

For fabric samples, please contact our office to arrange a visit from our sales team. We can also provide a sample hanger (a fee may apply) or free fabric swatches.

BLOCKOUT FABRICS

Block outside light entering your room while providing full privacy and inside temperature control. Fabrics are backed with a blackout solid coating.

Allow more light in the room than blackout fabrics and provide privacy from inside and

TRANSLUCENT FABRICS

outside.

SCREEN FABRICS

Filter light to reduce the strength of the sun, maintaining your view from inside while restricting the view from outside during the day. Help block UV rays fading floors and furnishings and control heat and glare. Dark colour fabrics give less light penetration, better glare control, greater transparency and better visibility. Light colour fabrics give greater heat protection.

SHEER FABRICS

Add a soft stylish sheer touch to your windows, while allowing natural light to enter your room. Controls glare and provides see-through visibility from inside and offers greater privacy from outside during the day than night. Dark colour fabrics provide greater privacy and control over light.

2. STANDARD ROLLER BLIND

Components include:

- **Fabric** - supplied by BQ Design
- **Roller tube** - robust aluminium (44mm diameter)
- **Base rail** - aluminium oval shaped rail in anodised silver colour.
- **Chain** - black or white plastic. Placed to right hand side unless otherwise specified. Provides smooth, consistent and reliable movement. Dark fabrics will be supplied with black chain. All other fabrics will be supplied with white chain.
- **Chain driver** - provides smooth, consistent and reliable movement.
- **Spring assists** - standard on larger blinds enabling easy operation.
- **Brackets** - in 40mm and 55mm projection for large drop blinds. All brackets are colour coordinated with fabrics.
- Componentry from Acdema.

ENHANCE YOUR BLIND WITH OPTIONAL FEATURES

Further customise your roller blind, by adding any of the following features to the standard blind configuration detailed above. Additional costs are incurred for these features:

BASE OPTIONS

Round base aluminium rails available in anodised silver, white, birch white, bone and black.

Oval base aluminium rails available in anodised silver (standard blind), white, birch white, bone and black.

Lathe to base blinds have a folded sewn bottom edge. A plastic rail is inserted into the sewn pocket (approx 45mm deep) providing a fabric base finish.

Round base rail

Oval base rail

Lathe to base

CHAIN OPTIONS

Nickel plated brass bead chain in silver.

Stainless steel bead chain in silver. Recommended for blinds in damper environments including bathrooms and seaside locations.

DUAL BRACKETS

Dual brackets are used when one window has two blinds, one in front of the other (115mm projection). Allows you to install a screen or translucent blind with a blackout blind on the same window, providing both daytime and night time blinds.

EASY-LINK CONNECTOR

Connects multiple blinds together across a window, with minimal gap between each blind. Use one chain to control all connected blinds.

MOTORISATION

Enables automated movement and improved customer comfort, security and energy efficiency. Battery operated and electrical motorisation available. [Find out more](#)

BQ Design also manufacture blinds using fabric you have sourced. View [bonded blinds custom range](#).

3. MEASURE AND ORDER

BQ Home Range blinds are ready for dispatch within 8 working days of receiving your order.

For measuring tips, select the "More Product Information" button below.
